

TECHNOVA PVT. LTD.

INFORMATION TECHNOLOGY POLICY

Document ID	TN-IT-001
Version	1.0
Effective Date	01 January 2026
Document Owner	Information Technology Department
Classification	Internal Use

1. Purpose

This policy defines acceptable use and protection requirements for company-owned IT equipment, software, systems, and technology resources.

2. Company Devices

- Laptops
- Desktop computers
- Monitors
- Mobile phones
- Headsets
- Other approved IT equipment

3. Device Assignment

Company equipment is assigned to employees based on role and business requirements.

4. Lost or Stolen Devices

Lost or stolen company devices must be reported to the **IT Helpdesk immediately**.

5. Software Installation

Employees must not install unauthorized or unlicensed software on company devices.

6. Passwords

- Keep passwords confidential.
- Use strong passwords.
- Avoid sharing passwords.
- Avoid writing passwords in publicly accessible locations.
- Follow company authentication requirements.

7. Company Data

Company data should only be stored and shared through approved company systems.

8. Personal Use

Limited personal use of company devices may be permitted provided it does not interfere with work, create security risks, violate company policy, consume excessive resources, or involve illegal activity.

9. Removable Storage

Employees should use removable storage devices only when required for legitimate business purposes and where permitted by IT security controls.

10. Device Return

- Employment ends
- Equipment is replaced
- IT requests the equipment
- Employee changes roles and equipment is no longer required

11. Example

If an employee loses a company laptop while travelling, the employee must immediately contact the IT Helpdesk and report the incident.

12. Contact

IT-related incidents and requests should be submitted through the TechNova IT Helpdesk.
